ELSEVIER

Reliability Engineering and Systems Safety **60** (1998) 267–268
Elsevier Science Limited
Printed in Northern Ireland

Contents of Volume 60

Number 1

1 Models for non-destructive inspection data
K. SIMOLA & U. PULKKINEN (Finland)

13 TTT-based tests for trend in repairable systems data
J. T. KVALØY & B. H. LINDQVIST (Norway)

29 A methodology for fault diagnosis in large chemical processes and an application to a multistage flash desalination process: Part I
E. E. TARIFA & N. J. SCENNA (Argentina)

41 A methodology for fault diagnosis in large chemical processes and an application to a multistage flash desalination process: Part II
E. E. TARIFA & N. J. SCENNA (Argentina)

53 An operator support system for research reactor operations and fault diagnosis through a connectionist framework and PSA based knowledge based systems
P. V. VARDE, S. SANKAR & A. K. VERMA (India)

Technical Notes

71 Human errors of commission revisited: an evaluation of the ATHEANA approach
E. DOUGHERTY (USA)

83 Relating aviation service difficulty reports to accident data for safety trend prediction
R. R. FULLWOOD, R. E. HALL, G. MARTINEZ-GURIDI, S. URYASEV & S. G. SAMPATH (USA)

89 Calendar

Number 2

Special Issue
Safety and Reliability in Industrial Management

91 Editorial: Safety and reliability in industrial management

93 Improved quality of input data for maintenance optimization using expert judgement
K. ØIEN (Norway)

103 Analysis of OREDA data for maintenance optimisation
H. LANGSETH, K. HAUGEN & H. SANDTORV (Norway)

111 On the impact of optimisation models in maintenance decision making: the state of the art
R. DEKKER (The Netherlands) & P.A. SCARF (UK)

121 Reliability centered maintenance
M. RAUSAND (Norway)

133 The ambiguity of contents and results in the Norwegian internal control of safety, health, and environment reform
J. HOVDEN (Norway)

143 Adapting the application of risk analysis in offshore platform design to new framework conditions
U. KJELLÉN (Norway)

153 Risk Influence Analysis. A methodology for identification and assessment of risk reduction strategies
R. ROSNESS (Norway)

165 Comment—SINTEF presentation, Trondheim. Safety and reliability in industrial management. IEC standards on maintainability
R. UNWIN (UK)

173 Standards in reliability and safety engineering
P. O'CONNOR (UK)

179 Use of reliability technology in the process industry
Ø. MICHELSEN (Norway)

183 Calendar

Number 3

185 An auditing methodology for safety management of the Greek process industry
Z. S. NIVOLIANITOU & I. A. PAPAZOGLOU (Greece)

199 Constrained mathematics evaluation in probabilistic logic analysis
J. A. COOPER (USA)

205 Loading adjustment policy of a two-unit shared-load system based on reliability management
K. S. WANG, J. J. HUANG & H. J. PO (Taiwan)

213 Use of importance measures in risk-informed regulatory applications
M. C. CHEOK, G. W. PARRY & R. R. SHERRY (USA)

227 A point-process stochastic model with application to safety at sea
M. S. FINKELSTEIN (Russia)

Technical Notes

235 Hardware programmable VLSI emergency shutdown system
G. DRAGFFY (UK)

247 A new method for selection of population distribution and parameter estimation
J. LING & J. PAN (USA)

257 Letter to the Editor: Supplemental viewpoints on the use of importance measures in risk-informed regulatory applications
W. E. VESELY (USA)

261 Letter to the Editor: Response to 'Supplemental viewpoints on the use of importance measures in risk-informed regulatory applications'
M. C. CHEOK, G. W. PARRY & R. R. SHERRY (USA)

263 Book Review
